

Jose Laurito

Full-Stack Software Engineer

703-457-0021 | [Portfolio](#) | [GitHub](#) | jose.i.laurito@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with a strong background in building dynamic, high-performance web and mobile applications. Proficient in JavaScript, TypeScript, Python, and modern frameworks like React.js, Next.js, and Supabase, with hands-on experience in leading projects from concept through to deployment. Known for delivering responsive, scalable, and secure applications that enhance user experience and client satisfaction. Highly skilled in Agile methodologies, CI/CD pipelines, and cloud-based solutions, with a demonstrated ability to collaborate effectively across teams and adapt to new technologies.

TECHNICAL SKILLS

- Languages & Databases: JavaScript, TypeScript, Python, HTML5, CSS3, Dart, SQL, NoSQL (MongoDB)
- Frameworks & Libraries: React, Next.js, Node.js, Express.js, Tailwind CSS, Supabase, Flask, Mongoose, jQuery
- DevOps & Tools: GitHub, Gitea, Vercel, Visual Studio Code, Postman, Figma, Linear, Slack, Firebase, Vite.js
- Certifications: Full-Stack Software Engineer (Coding Temple - [JavaScript](#), [Python](#), [CSS](#), [HTML5](#), [Flask](#), [React](#), [SQL](#)), [Software Developer \(Co.Lab\)](#)

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer

[The Spartan IT Group LLC](#) (Remote)

April 2023 – Present

- Project Lead for “The Kennel” – an e-commerce platform developed for Bulldog Community Gaming LLC, incorporating Next.js, Supabase, PostgreSQL, and React Hook Forms.
- Led end-to-end application development: architecture design, database integration, API development, and front-end optimization to deliver a seamless, responsive user experience.
- Created a product inventory management system and event scheduling features, supporting user engagement and business operations.
- Integrated OAuth for secure user authentication, ensuring data protection and user privacy across platforms.
- Deployed CI/CD pipelines, automating testing and deployment, which reduced release time by 30%.

- Utilized project management tools (Linear) to monitor project progress, ensuring timely and quality delivery of updates.

Full-Stack Software Developer

Co.Lab (Remote)

June 2023 – November 2023

- Developed “Break Buddy” and “Matrimoni” applications with React.js, Tailwind CSS, Material-UI, and Firebase, focusing on creating scalable, accessible web solutions.
- Designed and deployed "Break Buddy" on Vercel with a CI/CD workflow for rapid updates and reliability.
- Implemented user authentication with Firebase, ensuring secure access and user data management.
- Engaged in Agile development cycles, contributing to sprint planning and retrospectives to drive continuous improvement.
- Conducted code reviews, maintaining high standards in code quality and consistency, reducing bugs by 25% through proactive improvements.

Software Engineer – Freelance

Remote

January 2023 – June 2023

- Developed full-stack applications, specializing in single-page applications (SPAs) and progressive web applications (PWAs) with optimized mobile responsiveness.
- Develop MVPs, and incorporate real-time feedback into final products, leading to 100% client satisfaction on completed projects.
- Integrated third-party APIs and data sources, including Google Maps, payment gateways, and social media plugins.
- Implemented RESTful APIs and GraphQL queries, providing scalable backend solutions that reduced data loading times by 40%.

Restaurant/Hotel Chef

Marriott Magnificent Mile, Chicago, IL

August 2019 – Present

- Developed and executed diverse menu plans for regular and special events, aligning with Marriott’s standards for exceptional customer experience and high satisfaction ratings.
- Delivered top-quality presentation on every dish, upholding Marriott’s high standards for visual appeal and consistency.
- Plated every dish with attractive flair to meet strict restaurant standards and maintain a stellar business reputation.

EDUCATION

Coding Temple
Chicago, IL
Full-Stack Software Engineering
February 2023 – April 2023

De La Salle - College of Saint Benilde
Manila, Philippines
Bachelor of Science in Hotel, Restaurant & Institution Management (Culinary Arts)
April 2010 – July 2016
